

Using our Booster Pump & Tank Connector Kit

Convert your water supply from your tank to a pressurised solution

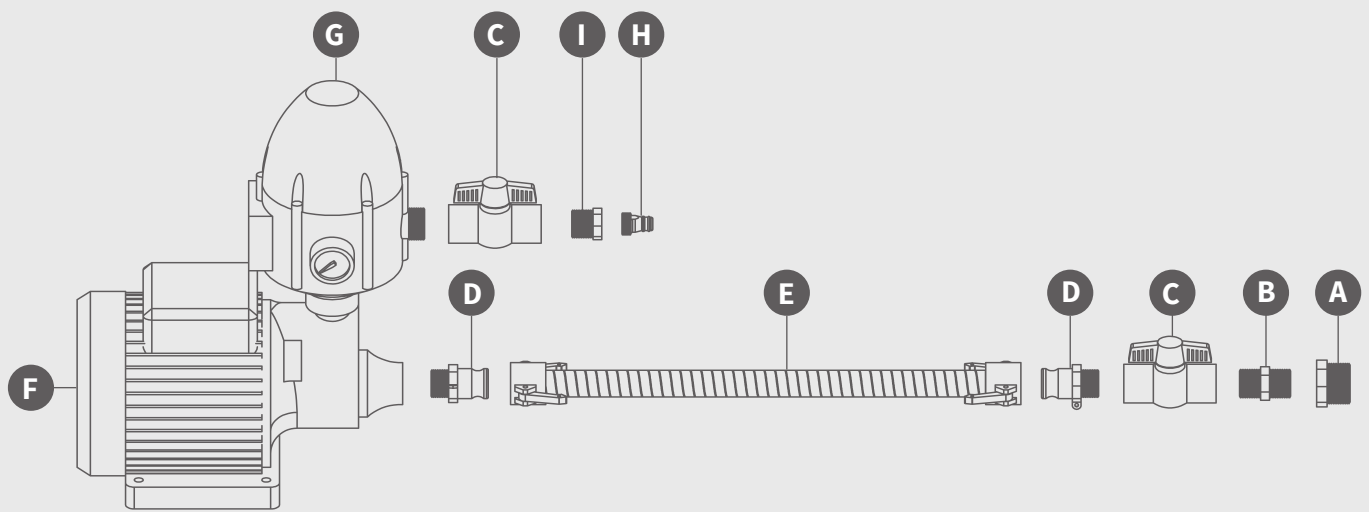

APPLICATION & ASSEMBLY

- | | | | |
|---|--|---|--|
| <p>01</p> <p>Screw ball valve assembly (A,B,C & D) into existing tank fitting</p> | <p>02</p> <p>Screw additional 25mm male coupler (D) into the pump (F)</p> | <p>03</p> <p>Screw remaining ball valve assembly (C,H & I) onto pressure control valve (G)</p> | <p>04</p> <p>Attach hose assembly (E) onto the male couplers (D)</p> |
| <p>05</p> <p>Connect hosepipe to accessory adaptor (H)</p> | <p>06</p> <p>Open both ball valves (C) to release water supply</p> | <p>07</p> <p>Plug electrical cord into power supply and switch on to activate pump</p> | <p>08</p> <p>To stop pump close ball valve (C) connected to control valve (G)</p> |

Note: It is advised to use HDPE piping and high pressure fittings

Using our Booster Pump & Tank Connector Kit

Supplies sufficient pressure for standard domestic use

WHAT'S IN THE BOX?

- A** 40/25mm Reducer
- B** 25mm Barrel Nipple
- C** 2 x 25mm Ball Valves
- D** 2 x 25mm Polyprop Male Couplers
- E** Flexible Hose Assembly
Hose + 2 x Female Polyprop Couplers

- F** 0.37kW BoosterPump
- G** Pressure Control Valve
- H** 20mm Accessory Adaptor
- I** 25/20mm Reducing Bush

SEAMLESSLY CONNECT THE UNIT TO A VARIETY OF JOJO TANKS

Note:

- All connections and fittings from tank to pump should not be less than 25mm
- Unit intended for clean water usage only and not suitable for irrigation.
- It is advised to run the pump once a week to ensure proper functionality
