

0.75kW VSD Booster Pump

- Best efficiency pressure range
2 to 3.5 bar
- Best efficiency flow range
13 to 40lt/min
- Easy to operate
- Automatic start/stop function
- Pre-wired with a 3-point plug
- Provides constant pressure
- Low noise level (60Db)
- Uses up to 80% less energy
- Restart delay to protect the motor from heat build-up
- Auto-rotation to rotate the bearings

- Unit intended for clean water usage such as drinking water or non-potable water piping systems, as well as for irrigation purposes.
- Unit suitable for use with water temperature ranging from 2 to 80 degrees celsius.

**ALL PUMP SYSTEMS

Highest Energy
Efficiency in Class

Class Leading Efficiency

Convert your tank supply to a pressurised solution and ensure you are never without water. This integrated variable speed drive (VSD) pump is ideal for use in your home or garden, as the speed at which the pump runs varies according to the pressure requirements, ensuring minimal energy is being used while providing you with a constant pressure supply.

Pump specifications

Pump Model: YBP750
Motor Power: 0.75kW
Best efficiency flow range: 13 to 40lt/min
Best efficiency pressure range: 2 to 3.5 bar
Max Fluid Temperature: 80 °C
Max Ambient Temperature: 40 °C
Package dimensions in mm:
 361 (h) x 326 (w) x 331 (l)
Package weight: 13kg

Integrated functions for protection from:

- Dry run
- Over-current
- Over/under voltage
- Overload
- Abnormal Pressure
