- Keeps household appliances clean
- Provides cleaner water for washing/rinsing
- Removes impurities from drinking water
- Rapid filtration
- Quick and easy filter replacement
- 1 year warranty (consumable parts only covered for manufacturing faults and defects)

For clean water throughout your entire home!

Our range of cartridges for the JoJo Whole-House 2-Stage Filter allows for different combinations to ensure filtration solutions for various household requirements.

Although this unit is suitable for municipal, rainwater and borehole water, it is important that the water source is appropriately controlled. Note: borehole water should be tested to ensure that it is safe for domestic use.

Whole House Specifications

Item code: JJ-WH20-TWOSTAGE

Package dimensions:

40.3 cm (l) x 23.2 cm (w) x 77.6 cm (h)

Package weight: 11.42 kg

Pack contents: 1 x Filter Housing

One, 1 x Filter Housing Two, Rubber O-Ring x 2, 1 x Filter Housing Cap, 1 x Mounting Bracket, Anchor Screws x 4, 1 x Housing Spanner.

Cartridge Specifications

Cartridge options:	Item codes:	Package dimensions:	Package weight:
Disruptor™ PAC-S	JJ-WHDR20	12.5cm (l) x 12.5cm (w) x 52cm (h)	0.208 kg
PP Sediment	JJ-WHPP20	12.5cm (l) x 12.5cm (w) x 52cm (h)	0.8 kg
PP Activated Carbon	JJ-WHPPAC20	12.5cm (l) x 12.5cm (w) x 52cm (h)	1.7 kg

Note: If you are not sure which cartridges to use, please see the Cartridge Combination Guidelines document.

How often should the filters be replaced?

It is recommended to replace the PP Sediment filter every 6 months, the PP Activated filter every 6 to 12 months, and the Disruptor filter every 8 to 12 months. **Note:** because water quality, cartridge setup and volume of consumption varies, filter service life will also vary.

For detailed installation and usage instructions, please refer to the installation manual on our website.
