### Water Tank Colours

\* Actual colours may vary \*\* Available at a 10% premium

# Pump Solutions

## Our Pump Benefits:

- Cost-effective
- Energy-efficient
- Easy to use
- All-inclusive - supplied with all required for usage
- Pre-wired with a 3-point plug

## THE RANGE

### Booster Pump-to-Tank Connector Kit

An all-inclusive kit that allows for seamless connection from your tank to your pump. *Note: this kit is only suitable for use with our 0.37kW and 0.75kW Booster Pumps.*

### 0.37kW Booster Pump

This Peripheral Vane Pump is designed to boost clean water, providing reliable water pressure while using minimal energy.

### 0.75kW VSD Booster Pump

This integrated Variable Speed Drive (VSD) pump is ideal for use in your home or garden. The speed at which the pump runs varies according to the pressure requirements, ensuring minimal energy is being used while providing you with a constant pressure supply.

### 1.5kW VSD Booster Pump

This VSD pump is designed for applications where more pressure is required and is perfect for larger homes and gardens. The speed at which the pump runs varies according to the pressure requirements, ensuring that you have a constant pressure supply without wasting any energy.

# Water Filtration Solutions

## INSIDE YOUR HOME

### Filter Bottle

A lightweight filter bottle that filters water as you drink it. Ideal for the gym, car, office or classroom.

### Filter Jug

Safeguard your drinking water with this filter jug that filters your water as you fill it.

### Countertop Filter

A countertop filter with a simplistic, modern design that will blend in with any kitchen.

### Undersink Filter

An undersink filter unit that is easy to install and ensures an out-of-sight, compact solution.

## OUTSIDE YOUR HOME

### Inline Filter

A filter that can clip onto your hose for access to clean water whilst camping or in instances where access to safe water is limited.

### Whole-House Filter

This filter provides clean, safe water for your entire household.
