RECYCLABLE Components

For healthy, great tasting water!

A simplistic, modern design ensures that the JoJo Countertop water Filter will blend in with any kitchen. This unit is easily connected to the water supply so you can enjoy pure, fresh and great tasting water from your tap in no time at all. Perfect for the DIY enthusiast and tenants, as no drilling is required for installation. The JoJo countertop water filter sits securely on its non-slip base and like the other filtration products in our range, it is made entirely of 100% recyclable materials that are of premium quality.

Item code: (Disruptor™ PAC-S) JJ-DRC, (PP Sediment) JJ-PPRC5M

Package dimensions:

6.8cm (l) x 6.8cm (w) x 27cm (h)

Package weight: (Disruptor™ PAC-S) 250 grams & (PP Sediment) 320 grams

How often should the filters be replaced?

It is recommended to replace the filters every 6 months or *3000 litres in order to maintain optimum filtration.

Note: because water quality and volume of consumption varies, filter service life will also vary.
