Highest Energy
Efficiency In Class

0.37kW Booster Pump

- Best efficiency pressure range 1 to 2.4 bar
- Best efficiency flow range 10 to 20 lt/min
- Easy to operate
- Automatic start/stop function
- Pre-wired with a 3-point plug
- Supplies sufficient pressure for standard domestic use
- Minimal maintenance required
- Easy to move: Lightweight clip-on pump unit stores away easily when not in use
- Stainless shaft
- Brass impeller/liner

- Unit intended for clean water usage such as drinking water or non-potable water piping systems. This unit is not suitable for irrigation systems.
- The SKD-2 flow control starts the pump automatically when pressure decreases and stops it when there is no flow or no water supply. **Note:** It is advised to run the pump once a week to ensure proper functionality.

Class Leading Performance & Design

Convert your tank supply to a pressurised solution and ensure you are never without water. This peripheral vane pump is designed for boosting clean household water, and provides reliable water pressure while using minimal energy.

Pump specifications

Pump Model: QB60

Motor Power: 0.37kW | 0.5HP

Best efficiency flow range: 10 to 20 lt/min

Best efficiency pressure range: 1 to 2.4 Bar

Max Fluid Temperature: 70 °C

Max Ambient Temperature: 40 °C

Package dimensions in mm:

370 (h) x 186 (w) x 328 (l)

Package weight: 9kg

Integrated functions for protection from:

- Dry run
- Over-current
