## For healthy, great tasting water!

The Inline Disruptor Filter is an ideal backup solution when access to clean water is limited. Use it while camping, or to simply fill your water tank, whatever your needs, this unit is perfect to use for inline applications where you are uncertain about the quality of water. It provides you with access to clean and safe water whether you are at home, travelling or on holiday, and takes up almost no space! Supplied with click-on-hose fittings that fit perfectly onto standard hose connectors for easy connection, with the added benefit of being 100% recyclable.

### Product details

- **Item code:**  
JJ-RV01DR
- **Dimensions in mm:**  
270(h)\* x 55(w) x 55(l)  
\*(excl clip-on hose connectors)
- **Total weight:**  
230 g

### Pack contents

- 1 x inline filter cartridge
- 2 x click-on-hose fittings

### Availability

#### Stock Item:

Stock items are subject to a 7 day calendar lead time

### How often should the filter be replaced?

- The inline disruptor filter does not have a separate cartridge, the entire unit is the filter cartridge.
- It is recommended to replace the unit after \*1 500 litres or 8 to 12 months for optimum filtration.
- **Note:** because water quality and volume of consumption varies, filter service life will also vary.
