

Water, On Your Terms.

Space-saving water storage
for homes where every metre matters.

Slimline
Water Storage Solutions

August 2026

JoJo
FOR WATER FOR LIFE

Every great water solution starts with the right foundation.

Water storage isn't just about having a tank—it's about creating a solution that works for your home and your lifestyle.

The JoJo Slimline range combines space-efficient design with the flexibility to support municipal backup, rainwater harvesting and everyday water management. Add pumps, filters and accessories, and your water storage system becomes a dependable source of water when you need it most.

Inside, you'll discover our Slimline range and the components that help you build a complete water storage solution, one that fits your space and grows with your needs.

Slimline Water Storage Tanks

TANK	WARRANTY	AVAILABILITY	DIAMETER	HEIGHT
750L Slimline™	10-year	S Stock	760mm	1 850mm

2 500L MultiSlim	10-year	NS Non-Stock	760mm (width) 2 500mm (length)	1 960mm

All the capacity, none of the bulk.
Choose your ideal Slimline tank and make the most of your space.

Award-Winning by Design. Engineered for the Way You Live

Voted Product of the Year South Africa 2026, the JoJo Slimline combines trusted JoJo quality with space-saving design — giving you dependable water storage without taking over your space.

- Slimline profile **fits where standard tanks can't**
- Optimal 1,000L capacity — **big storage without the footprint**
- Link tanks in series for **scalable capacity**
- Virgin LLDPE — UV-stabilised, BPA-free, **food-grade**
- Black inner lining prevents algae growth
- **Reinforced base** for long-term structural support
- Rainwater harvesting, municipal backup, and borehole compatible
- **Multiple colours** + premium Marble Finish
- One-piece moulded — no joints, no leaks
- **10-year warranty**

Start with a Solid Base

Adjustable Feet

Level your stand on uneven surfaces

NS

DIY Slimline Stand

Hassle-free to assemble and designed to provide a strong, stable foundation for your 750 & 1000L Slimline tank.

Prefer a Concrete Slab?

A level, smooth and solid slab is key. Make sure it's large enough for the tank to sit fully on the base, with no overhang.

DIY Made Easy

Get your foundation right. Scan to learn how.

Increase your Storage

S

Tank to Tank Elbow Connector Kit

For the first tank in your setup. Start your installation with a durable ball valve and elbow connection.

S

Tank to Tank T-Piece Connector Kit

For adding extra tanks in series. Seamlessly link additional tanks to expand your storage capacity.

S

Tank to Tank Extension Kit

Ideal for setups that require connecting tanks over longer distance or around obstacles.

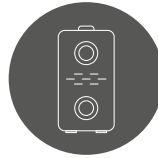

1.2m x 50mm PVC Pipe

Supplied in the same distinctive dark grey as our kits for a premium, uniform look.

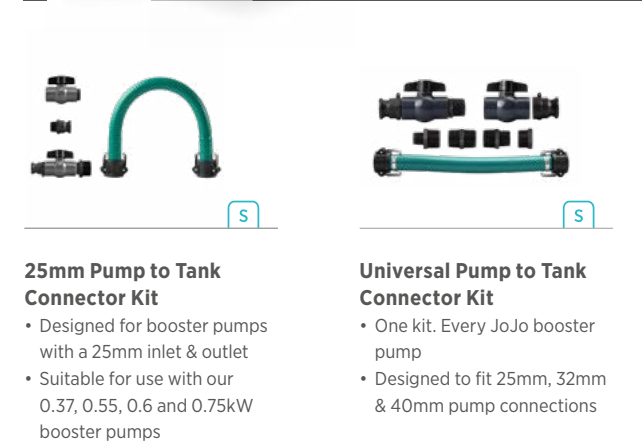

Pressurise your Water

PUMP		BEST EFFICIENCY PRESSURE RANGE	BEST EFFICIENCY FLOW RANGE	NUMBER OF BATHROOMS	
0.37kW Basic Booster Pump & Connector Kit		1 to 2.3 bar	5 to 15L/min	1	
0.37kW Booster Pump		1 to 2.4 bar	10 to 20L/min	1	
0.37kW Smart Series Pump		1 to 2.2 bar	25 to 58L/min	1

1.1kW Smart Series Pump		2 to 3.5 bar	67 to 150L/min	8	

Introducing the Smart Series Range

A breakthrough solution combining permanent magnet technology with Variable Speed Drive control—delivering performance that outperforms conventional pumps.

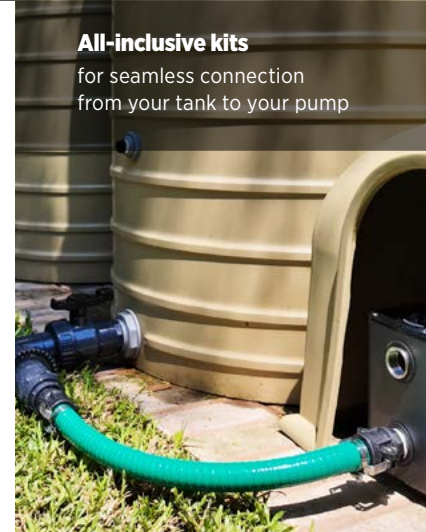

25mm Pump to Tank Connector Kit

- Designed for booster pumps with a 25mm inlet & outlet
- Suitable for use with our 0.37, 0.55, 0.6 and 0.75kW booster pumps

Universal Pump to Tank Connector Kit

- One kit. Every JoJo booster pump
- Designed to fit 25mm, 32mm & 40mm pump connections

All-inclusive kits
for seamless connection
from your tank to your pump

Protect your Pump

Standard Pump Cover

Height: 500mm
Width: 540mm
Length: 540mm

Medium Pump Cover

Height: 620mm
Width: 540mm
Length: 540mm

Add a JoJo Pump Cover to maintain your warranty, protect your pump from the elements, and extend its lifespan.

- UV-resistant
- Corrosion-resistant
- Durable
- Light-weight
- Available in a range of colours to match your JoJo tank

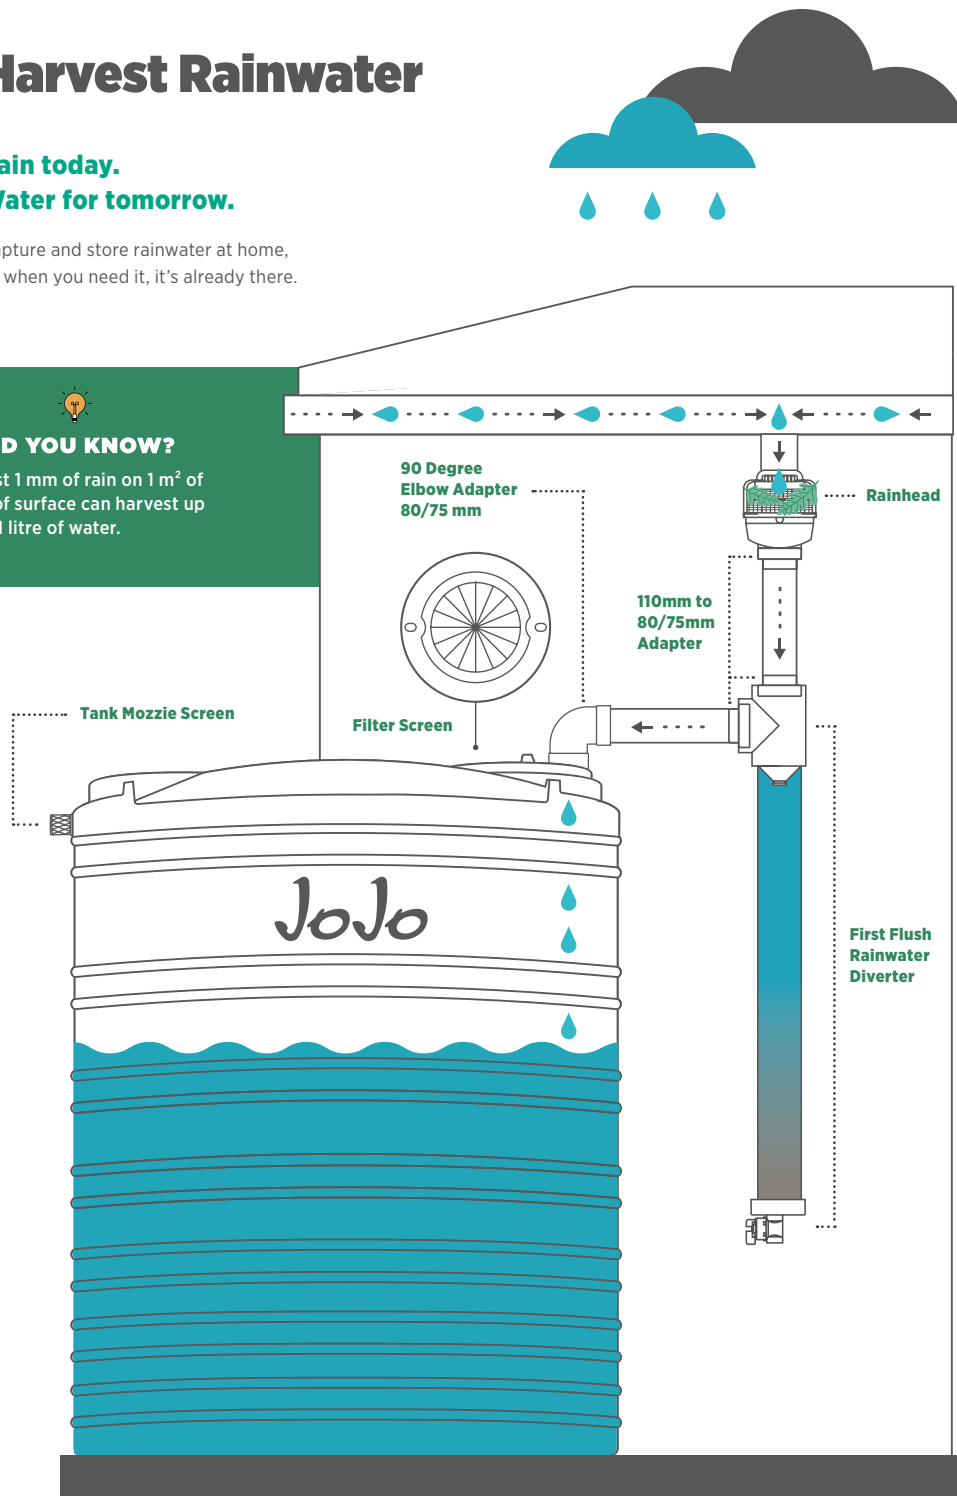

Harvest Rainwater

**Rain today.
Water for tomorrow.**

Capture and store rainwater at home,
so when you need it, it's already there.

DID YOU KNOW?

Just 1 mm of rain on 1 m² of
roof surface can harvest up
to 1 litre of water.

Rainwater Harvesting Accessories

S

Rainhead

Stops leaves and debris
before they enter your
rainwater system.

S

First Flush Rainwater Diverter

Diverts the first flow of
rainwater, helping cleaner
water reach your tank.

S

110mm to 80/75mm Adapter

Makes connecting different
pipe sizes simple.

S

90 Degree Elbow Adapter 80/75mm

Makes changing pipe
direction easy while adapting
between sizes.

S

480mm Stainless Steel Tank Filter Screen

Fine filtration for cleaner water
and added insect protection.

S

480mm Plastic Tank Filter Screen

A simple way to keep
debris from entering your
stored water.

S

Tank Mozzie Screen

Keeps mosquitoes out while
allowing water to flow freely.

Filter your Water

Filter Water Where You Use It

Countertop Filter

A plug-and-play filter that is connected to your tap for healthy water in minutes.

10 Inch 1-Stage Filter Casing

Flexible filtration for cleaner water right where you need it, from the kitchen to other dedicated points of use.

Undersink Filter

A compact under-sink filter supplied with everything required for installation.

Inline Filter

The ideal filter solution when access to clean water is limited, both in and outside of the home.

Filter Water as It Enters Your Home

10 Inch 1-Stage Filter Casing

A simple solution for smaller homes, filtering water at the point it enters your home.

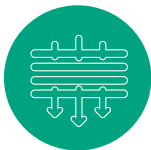

20 Inch 1-Stage Filter Casing

Ideal for higher-volume sediment filtration, helping remove dirt and particles from your incoming water supply.

20 Inch 2-Stage Filter Casing

Ideal for more comprehensive filtration, helping reduce a wider range of impurities for cleaner water throughout your home.

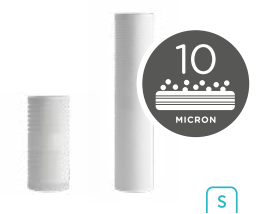

Filter Cartridges

Countertop and Undersink Filter Cartridges

1st Stage Sediment filters out dirt and particles, followed by 2nd Stage Disruptor™ for more advanced filtration.

10 Inch 10 Micron PP Sediment Filter Cartridge

Removes larger sediment to protect your plumbing and extend the life of downstream filter cartridges.

10 & 20 Inch 5 Micron PP Sediment Filter Cartridge

An all-round sediment filter that balances effective filtration with excellent water flow.

10 & 20 Inch 1 Micron PP Sediment Filter Cartridge

Removes very fine sediment to improve water clarity and protect downstream filtration systems.

10 & 20 Inch Activated Carbon Filter Cartridge

Removes chlorine, sediment, dirt, rust and other suspended particles.

10 & 20 Inch Disruptor™ Filter Cartridge

Removes viruses, E.coli, cysts, bacteria, parasites, chlorine, trace pharmaceuticals, some heavy metals and more.

Game-Changing Disruptor™ Technology

JoJo's filtration range is powered by Disruptor™, a revolutionary breakthrough in water purification that uses electroadsorption — an advanced process that activates an electrical field using only water to attract and trap even the tiniest contaminants.

REMOVES Bacteria

REMOVES Viruses

REMOVES Parasites

REMOVES Sediment

REMOVES Medicine

REMOVES Chlorine

Why Choose Disruptor™ Filters?

- ✓ Comprehensive purification in a single filter
- ✓ No water wastage
- ✓ Operates without electricity
- ✓ Preserves healthy minerals
- ✓ Outperforms conventional filters in removing contaminants

Automate your Backup Supply

S

Water Tank Float Valve Kit

A simple way to keep your tank topped up. It automatically starts refilling as the water level drops and shuts off when the tank is full.

S

20mm Fill Valve

Set your minimum and maximum water levels so your tank only refills when needed, helping reduce pump cycling. Flow rate up to 200 L/min.

S

40mm Fill Valve

Set your minimum and maximum water levels so your tank only refills when needed, helping reduce pump cycling. Flow rate up to 600 L/min.

Monitor your Water

Stay Informed. Stay In Control.

JoJo Monitor Tank Level

1 S

Monitor your tank levels from your phone, with an easy view of your stored water and consumption trends to help you manage your supply.

JoJo Monitor Water Meter

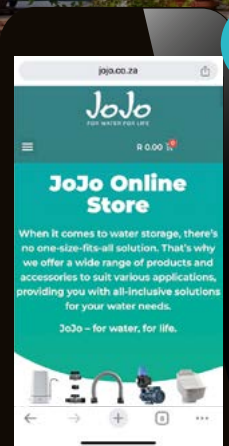

1 S

Track your water flow and usage from your phone, helping you spot potential leaks or unusual flow and manage your water more efficiently.
